# Defort®

MEASUREMENT TOOLS

SBM group

DLL-10MT-K. Laser level

Compact and handy level with 10 mm diameter of the working area, perfect for hanging and alignment of different types of wall decorations including pictures, wall paper, tiles etc.

Cross-line projection

Spot projection

Backlight

Magnet for easy mounting

Projection mode switch

Tripod with adjustable legs and top

Compact case

DLL-10T-K/15T-K. Laser Level (10 m/15 m)

With precision 0,5 mm and 650 Hm laser diod the level is perfect for drawing straight horizontal and vertical lines. Powered by two AA size batteries.

Self-leveling cross–line

*360° scale*

Tripod with height regulation

GOGGLES INCLUDED

DLL-9. Laser level

Pocket-size laser level. Suitable for handymen who are always on the move and prefer to carry around light equipment. With 9 meters work range Defort DLL-9 is perfect for home use. Two air bubbles on top of the device provide correct placement of the laser level on working area.
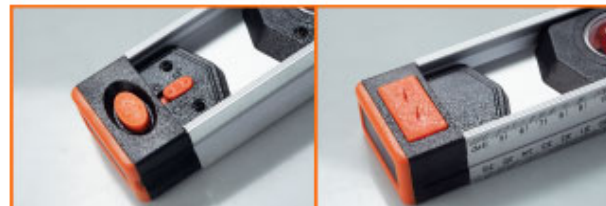

ULTRA COMPACT

*45g and 80mm ONLY*

Fixing with pins or maget

3 in 1

DLL-0,8-M. Multifunctional level

Includes: Wire/metal detector DMM-20, Laser guide and classic bubble level. Laser guide and level are fixed in main casing, and you will never loose it during work or transportation.

Built in detector DMM-20

Compact laser guide

Steel pins for fixing

Easy to make points above your eye level

![Defort]

## DLL-0,8-L. Level with innovative indication system

Air bubble level suitable for working in horizontal and vertical applications as well as measuring 45˚ angles. Made out of thick aluminum profile. Light and sound indication.

Measuring of horizontal surfaces

Easy handling

Measurement of 45° angles

Hole for easy hanging

Measuring of horizontal surfaces

with error ± 0,1° -   **green light and 3 sound signals**

with error >0,1° < 0,5° -   **blinking green light**

with error < 0,5° -   **red light**

DMM-20. Detector

Detects metal, wires and wooden elements in walls and partitions. This simple device will help you to avoid getting in to the wall armature or damage the wire.

Detects electric wires and wooden elements

DMM-20D-RF. **Mulifunctional tester**

Combines in one: detector of metal and wooden elements, ultrasonic distance meter and laser level. DMM-20D-RF can save you money, because you get 3 devices in 1.

3 in 1

Distance metering up to 16m

Built-In ultrasonic distance meter

10 meters laser guide

**Magnet and pins for fixing**

Defort®

DMM-20D-RF. Multifunctional tester

Timber, metal and electric wire detector one one side of device. Special indication is seen on the display together with sound alarm when device detects material (according to chosen mode). Additional feature: inside temperature monitoring.

AC   METAL   WOOD

SBM group

![Defort logo]

DMM-20D. Detector

Detects hidden electric wire, metal and wooden elements in the walls and partitions. It will help you easily fix with screw the wooden frame and find hollows in the wall.

Electric wire, metal and wood detection
